## Forest Use Guidelines/Schedule A

**All visitors to Haliburton Forest are advised of the fact that Haliburton Forest in general is a wilderness area. It is therefore expected that all visitors are familiar with basic concepts and dangers inherent to the use of the outdoors and are prepared accordingly.**

- 1) The following are a number of conditions and safety rules that must be met by user groups:
  - a) Damages to property and equipment, above normal wear will be the responsibility of the individual or group. Repair and or replacements costs will be the responsibility of the individual or group.
  - b) No part of standing trees shall be cut or mutilated.
  - c) Do not trespass on the property surrounding trailers, campsites or hunt camps.
  - d) No firearms are permitted without written consent.
  - e) Garbage is to be removed off the property at the time of departure and or deposited in the appropriate disposal units at the Base Camp
- 2) In Particular but notwithstanding further additional dangers:
  - a) Haliburton Forest advises visitors not to feed wildlife.
  - b) Haliburton Forest strongly advises visitors not to use water from lakes or streams for human consumption without treatment by boiling or chemical means.
  - c) Haliburton Forest must be informed immediately of any incident involving personal injury and or property damage that has occurred while using Haliburton Forest property.
  - d) Haliburton Forest cannot and does not pretend to list or eliminate all the hazards associated with use of the property, visitors are advised to use caution at all times.
- 3) Additional winter concerns:
  - a) There shall be no hiking or skiing on designated snowmobile trails
  - b) When traveling on ice use common sense and do not go where outflows and inflows are present.
  - c) Be prepared for the worst conditions (e.g. wind chill and/or equipment breakdown.)
  - d) Check with knowledgeable Haliburton Forest staff for more updated conditions.
